

Once you are logged in to Parent Portal, you will find that there is ample information listed.

*\*Please be sure that you have logged in from the website that is shown in the example to the left.*

## Family

Below your name on the left of the screen, you should find a family calendar and “To Do” list. This will give you an overview for all of the students tied to your portal account. The calendar will show Assignments and Attendance events as well as school holidays.

<< **November 2010** >>

Assignment (s) Due

Sunday	Monday	Tuesday	Wednesday	Thursday

07	08	09	10	
14	15	16	17	
21	Holiday - Other	Holiday - Other	Holiday - Other	24

The “To Do List” shows assignments that are scheduled. An assignment listed in red designates that a grade has not been entered for the assignment. This could indicate an overdue assignment or a delay in grade entry by the teacher.

Attendance is also listed in a separate heading, but it will only mark negative attendance marks such as absences and tardies. If your child's record shows nothing in the right-hand column, then they have been counted as present for every day they've been enrolled in school.

## Behavior

Behavior events will be displayed under the Behavior heading, if any exist. These items should be listed for each student for whom you have parent portal access. The following details are included for each existing behavior event.

Date	Event	Demerits	Role	Resolution
